Experience the epitome of modern living in our newly constructed apartments, characterized by contemporary architecture. Each unit features 2 bedrooms and 2 bathrooms, with an open kitchen seamlessly integrated into the living room. Choose from a variety of models, each meticulously designed to optimize space utilization, harnessing the abundant Mediterranean light and providing an additional layer of comfort to your daily life. Ground-floor apartments boast a terrace and garden, while top-floor residences come with a solarium, all strategically arranged to maximize functionality and aesthetic appeal. The interiors are thoughtfully equipped for comfort, featuring under-floor heating, centralized hot and cold air conditioning controlled by a thermostat in the living room, and hot water supplied by an efficient Altherma system. The inclusion of top-tier electric appliances and a carefully curated interior decoration project add style and warmth to...
